SuperStream

Under SuperStream (the government's legislation for electronic super payments), all employers need to pay super contributions through a method that meets the SuperStream rules.

Employers can do this by using:

- their own software solution that complies with SuperStream
- a solution by an outsourced payroll or other service provider that complies with SuperStream
- a clearing house, such as the Small Business Superannuation Clearing House or AMP eSuper®.

More information about SuperStream is available at:
